MUSEU  
D'ART CONTEMPORANI  
DE BARCELONA

320 works by eighty artists, 250 of them as yet unseen in the context of the **MACBA** Collection. Installations, paintings, sculptures, photographs collages...time as another material in artistic production.

Outstanding works by Ignasi Aballí, Judith Barry, Constant, Dan Graham, Hans Haacke, Sanja Iveković, Joan Jonas, David Lamelas, Rita McBride, Asier Mendizabal, Matt Mullican, Deimantas Narkevicius, Palle Nielsen, Tere Recarens, Francesc Torres and Lawrence Weiner, among others.

This presentation lays emphasis on the change in paradigm brought about by the introduction of time as a feature that defines our relationship with the work of art. At the same time it examines how music, theatre and film transform the perception and thinking of art.
