Works from the collections of "la Caixa" Foundation and MACBA

The Museu d'Art Contemporani de Barcelona (MACBA) presents the first collaborative exhibition combining works from the collections of "la Caixa" Foundation and MACBA Collection, as a result of an agreement between "la Caixa" Foundation and MACBA Foundation. *Volume!* deals with the consolidation of sound and voice as materials for artistic production at the turn of the present century. The new model is rooted in experimental video and cinema works that favour a narrative language that gradually frees itself from the image. The relation between voice and image, vocal experimentation, the inner voice and the voice of power, are some of the approximations to the human voice featured in an exhibition that aims to emphasise sound's capacity to produce physical volume.
