BLIND DATES in ARENA

Since its inception in 1997, Rita McBride's *Arena* – the highly celebrated and well-travelled 4-meter by 4-meter modular tribune – has hosted over 100 artists, poets, writers, architects, musicians, curators and politicians. Within the exhibition *Public Tender*, MACBA has invited artists under the programme title of *Blind Dates* to activate the *Arena* every month for the four-month duration of the show. The programme is the latest addition to the extensive history of *Arena* whereby there have been many different programmes either instigated by the institution or by request from McBride. *Blind Dates* is the collective name for the events that start from an invitation by the institution. *TBA (To Be Announced)* is another programme that will run con-

current to *Blind Dates* and is reserved for potential spontaneous activations of *Arena*. *TBA* is announced for the dates of June 14th, 15th and 16th (during the Sónar festival).
